

Candidate information

In March 2011 the 4th National Audit program found that a disproportionate number of reported airway events occurred on Intensive Care Units (ICUs). The reasons it highlighted for this included a lack of; skilled staff, planning, appropriate equipment and appropriate responses to unfolding events.

Aims of todays course

- Improve patient safety when intubating on ICU
- Develop the multidisciplinary skills required for intubation in an ICU patient
- Initially to train key people across the region with the aim of creating a core of skilled people to distribute it to their own trusts

By the end of the course all candidates should be confident to undertake their role in an

- emergency intubation on ICU
- a difficult intubation situation on ICU
- a cant ventilate situation on ICU

08:30 – 8:45	Registration
8:45 – 9:15	Introduction
9:15 – 10:30	Practical stations
10:30 – 11:00	BREAK
11:00 - 12:15	Human factors
12:15– 13:00	LUNCH
13.00-14.30	Orientation to simulation and RSI simulation
14:30 -14:45	BREAK
14:45 - 16:15	Simulation
16:15 – 16:30	Close and feedback

Please remember to fill in the post-course reflection and feedback. You will receive your certificate once this has been completed.
